

*Department of Chemical and Biomedical Engineering
Cleveland State University
Fall 2018 Seminar Series*

October 11th: **Modeling Ion Conduction through Block Copolymers: Impact of Morphology and Ion Solvation**

*Lisa Hall, PhD
Chemical and Biomolecular Engineering
The Ohio State University*

October 25th: **Polymer aerogels for aerospace applications**

*Mary Ann Meador, PhD
NASA Glenn Research Center*

November 8th: **Advanced separation materials for highly selective separations**

*Christine Duval, PhD
Chemical and Biomolecular Engineering
Case Western Reserve University*

November 29th: **The Treatment of Atrial Fibrillation**

*Andrew Lux, PhD
Senior Vice President, Atracure, Inc.*

Faculty Introduction Talks

September 6th

Chris Wirth, PhD
Geyou Ao, PhD
Xue-Long Sun, PhD

September 13th

Jessica Bickel, PhD
Orhan Talu, PhD

September 20th

Chandra Kothapalli, PhD
Rolf Lustig, PhD
Jorge Gatica, PhD

September 27th

Joanne Belovich, PhD
Kiril Strelitzky, PhD

October 4th

Moo-Yeal Lee, PhD
Surendra Tewari, PhD
Jianjun Zhao, PhD

All seminars 3:00 PM – 4:00 PM in Washkewicz Hall 405
